Winery information

The first Torres winery was built in Catalonia and, encouraged by this thousand-year-old culture, Torres began its expansion by paying homage to the best vineyards in the world, selecting the best estates and seeking the local identity of each land.

Chardonnay and Parellada are harmoniously blended after careful fermentation of a percentage in Limousin oak barrels, thus retaining the character of each variety. The result is a magnificent, intense wine.

Gran Viña Sol was a pioneer in the production of cask-fermented Chardonnay in Spain. Its name is very apt as it's a wine of greater complexity and presence than the traditional Viña Sol.

Winemaking

Grape Varieties

Chardonnay - A grape with which young and very noble, elegant white wines with an unmistakable aroma are produced. It is grown in Conca de Barberà, Penedès Medio and Superior.

Parellada - A traditional fine and delicate Catalan variety. It produces aromatic light dry white wines with gentle fruity aromas.
